Zoning

For registration purposes, players will be zoned to a team according to their PlayHQ registered address. Where a player is close to more than one zone, they may request dispensation from the Competition Coordinator to play in the opposite zone to their post code. Zones with low numbers may require players from outside their zone to even up team numbers. This will be at the discretion of the Competition Coordinator and Women's Committee in the best interests of the competition. Training/playing/socialising in your zone will help foster an inclusive, supportive and diverse environment to play masters "Footy for Fun" and close to your home. Unsure of your zone, reach out to the Competition Coordinator.
